Shared Cities: Creative Momentum (SCCM) is on a mission to improve the quality of life in European cities. By exploring aspects of sharing and urban design we are creating new ways of living in our cities. Together.

Living in the city, we're used to sharing – green spaces, bus seats, even the air we breathe. We know that sharing a car or a flat can make it worthwhile. Instead of owning a bike we can rent one, too. Sharing has become a part of urban life.

Wait a minute: would you go as far as sharing your clothes, your skills or your wifi-password?

Over four years, Shared Cities: Creative Momentum is bringing together eleven organisations from seven European cities to create a space for architecture, art, urbanism and the sharing economy to meet and contribute to the transformation of urban spaces.
